Resume

I'm a web developer working professionally for 15 years ago, I worked on all kinds of projects providing all kinds of solutions with different tech stacks, I focused on front-end development with strong experience developing WordPress sites from the scratch.

I also managed my marketing agency for 10 years, which is something that gave me a unique experience acquiring invaluable skills like responsibility, transparency, and seriousness.

My main skills are: Wordpress, HTML, CSS, JavaScript, PHP, React.
